Greg T. *Chism*, Ph.D.

LEARNING EXPERIENCE DESIGNER · AI EDUCATION

BEND, OREGON (REMOTE) · GCHISM94@GMAIL.COM · GREGTCHISM.COM · LINKEDIN.COM/IN/GREG-CHISM · GITHUB.COM/GCHISM94

Learning experience designer with four years of experience designing, teaching, and revising graduate AI and data science education. Six courses designed and taught end-to-end, four with open-source public course sites. Grew an industry-sponsored capstone from 7 to 100+ students. Builds AI instructional tooling: agentic tutoring, retrieval-augmented feedback, adaptive assessment. Carpentries Instructor Trainer who certifies other instructors in evidence-based teaching.

EXPERIENCE

Assistant Professor of Practice · *Faculty Director of Instructional Computing*

2023-PRESENT

UNIVERSITY OF ARIZONA · COLLEGE OF INFORMATION SCIENCE · REMOTE (DIRECTOR ROLE 2025-PRESENT)

- Designed and taught **six graduate courses end-to-end** — data science fundamentals, machine learning, data mining, visualization, neural networks, capstone — with four open-source course sites versioned and revised every term.
- Grew INFO 698 Capstone **from 7 to 100+ students**, the College's largest applied program: scope industry sponsors' business goals into team projects students can ship, set consistent expectations and assessment, and run its compute infrastructure.
- Built AI tools into the courses: **Sol**, an open-source agentic tutoring and feedback system; retrieval-augmented feedback, adaptive quizzes, and code-similarity checking in INFO 511; gamified exams in Neural Networks.
- Automated assessment with GitHub Classroom and GitHub Actions test suites (correctness, style, edge cases); enrolled professionals confirm it matches how they work in industry.
- Won ~$368K in NSF computing awards as Lead-PI: NAIRR Classroom Pilot (~$50K — the university's only competitively awarded NAIRR Pilot allocation), ACCESS Discover ($245.5K, powering 10+ LLM/AI capstone projects), ACCESS Explore ($72.8K); Jetstream2 AI Fellow (NSF ACCESS / NAIRR).
- Lead education & outreach for **MESA**, a $4.6M NSF cyberinfrastructure project; developing EduCloud, a provider-agnostic educational computing platform (University HPC, Jetstream2, AWS Bedrock) with per-course cost transparency.
- Mentoring: primary PhD advisor (dissertation on AI sandboxes in education), committee member for four more, **24 capstone team projects** mentored; designed an industry-facing course for UA Global Campus international students.

Co-Founder & Principal Consultant

2024-PRESENT

THREE CANYON CONSULTING · BEND, OR

- AI and data strategy consulting for universities, health systems, and mission-driven organizations: AI application evaluation, data systems design, and analytics strategy.

Computational & Data Science Educator

2022-2023

UNIVERSITY OF ARIZONA · DATA SCIENCE INSTITUTE

- Designed and taught workshops for **complete beginners** — intro to LLMs, EDA in R and Python, reproducible research, SQL, Unix shell — with all materials openly archived (8 Zenodo releases); mentored 40+ graduate students and postdocs.

Research Scientist

2017-2022

UNIVERSITY OF ARIZONA · SOCIAL INSECT LAB

- Designed and executed empirical behavioral research with reproducible pipelines (Binder, GitHub Actions); **8 peer-reviewed articles** to date, including measurement-validity research in the *Journal of Affective Disorders* (2026).

TEACHING CREDENTIALS

Carpentries Instructor Trainer — train and certify new instructors worldwide in evidence-based, inclusive teaching · Certified Instructor since 2022 — 2023-PRESENT

Co-Director, Data Science Ambassadors Program · Chair, Research Bazaar Arizona (three universities) · Duke 3C Fellow — 2023-PRESENT

EDUCATION

Ph.D., Entomology & Insect Science, University of Arizona — NSF Graduate Research Fellow ($30OK) — 2022

B.S., Zoology, University of California, Santa Barbara — graduated with distinction — 2016

SKILLS

LEARNING DESIGN	End-to-end course design · backward design · cohort-based learning · authentic assessment · gamification · adaptive tutoring · learning analytics · instructor training
AI TOOLKIT	Prompt engineering · Claude & OpenAI APIs · RAG · agentic workflows · MCP · AI evaluation
TECHNICAL	Python · R · SQL · JavaScript/React · Quarto · Git & GitHub Actions · Docker · cloud & HPC
